Claro Scientific to Present at AdvaMed 2011

St. Petersburg, FL--(September 19, 2010) — Claro Scientific today announced that the Company is scheduled to present at AdvaMed 2011 – The MedTech Conference at the Walter E. Washington Convention Center in Washington, DC which is being held September 26-28, 2010.

Thomas McLain, Claro's Chief Executive Officer, will present an overview of the Company's SpectraWave diagnostic system, applications targeted for partnerships with diagnostic companies, and investment opportunities. Mr. McLain will present at 9:40 AM in Room 204A on Tuesday September 27th.

Hosted by AdvaMed, The MedTech Conference is the premier medical technology conference for CEOs, business executives, policy-makers, financiers, media, and industry stakeholders from around the world. Companies were selected for presentations based on intellectual property protection; expected time of next capital raise; whether the technology is licensable; and conference appeal to the medical device, diagnostic, medical information and pharmaceutical industry, or other potential partners; and stage of development.

Event: AdvaMed 2010, The MedTech Conference

When: Tuesday, September 27 at 9:40 a.m. (EDT)

Place: The Walter E. Washington Convention Center, Washington, DC, Room 204A

Pre-registration is required: <http://www.advamed2011.com>.

To meet with Claro at this event, please contact Thomas McLain at thomas.mclain@clarosci.com.

Claro Scientific, LLC

Claro Scientific has developed SpectraWave™, a portable, reagentless diagnostic system that delivers actionable results in less than five minutes. Through clinical studies, Claro has demonstrated its value for pathogen identification by achieving a very high degree of sensitivity and specificity. SpectraWave will redefine medical care by bringing complex laboratory testing to the patient in a low cost and process efficient way. SpectraWave products have significant competitive advantages in several commercial markets including medical diagnostics and personalized health monitoring.
