Claro Scientific to Present at SEMDA

St. Petersburg, FL--(March 12, 2012) — Claro Scientific today announced that the Company is scheduled to present at SEMDA, the 6th annual Southeastern Medical Device Association Conference this week. Thomas McLain, Claro's Chief Executive Officer, will present an overview of the Company's SpectraWave medical diagnostic system, commercial applications targeted for strategic partnerships and investment opportunities.

Presenting companies will have the opportunity to introduce their business plans and technology to venture capitalists, angel investors and corporations gathering from across the U.S. "This group of presenting companies is truly outstanding. The committee, headed by Ashley Hancock and Angela Sinton, focused on commercially viable technologies that offer innovative means of improving patient outcomes," said David Hartnett, SEMDA President and Vice President of Bioscience/Health IT Industry Development at the Metro Atlanta Chamber. "Within the biomedical field, medical devices remain one of the strongest areas for investors, and those attending the SEMDA 2012 Conference will be able to see why this trend remains powerful."

Event: SEMDA 2012 Conference

When: Wednesday March 14, 2pm

Place: Georgia Tech Global Learning Center, 84 5th Street Northwest, Atlanta, GA 30308

To meet with Claro at these events, please contact Thomas McLain at thomas.mclain@clarosci.com.

About Claro Scientific, LLC

Claro Scientific has developed SpectraWave™, a portable, reagentless diagnostic system that delivers actionable results in less than five minutes. Through clinical studies, Claro has demonstrated its value for pathogen identification by achieving a very high degree of sensitivity and specificity. SpectraWave will redefine medical care by bringing complex laboratory testing to the patient in a low cost and process efficient way. SpectraWave products have significant competitive advantages in several commercial markets including medical diagnostics and personalized health monitoring. About SEMDA

The Southeastern Medical Device Association (SEMDA) supports and promotes medical device companies in the Southeast. Created in 2004, the association provides a unique resource and networking opportunity for medical device companies, entrepreneurs, inventors, physicians and investors interested in accelerating the growth of the medical device industry in the Southeast.

Through its quarterly and members-only meetings, as well as the highly regarded annual Conference, SEMDA provides a means for companies and medical device professionals to network and build a community, and supports them with resources to succeed. SEMDA offers a forum where members can share information, hear top industry speakers, and meet with individuals who can assist them in growing their business. For additional information, please visit: <http://www.semda.net/>
